AFRICAN INDIGENOUS EXTRACTS

African Indigenous Extracts

African Indigenous Extracts Body & Spa products were specially created to deliver the best results, without compromising the texture, feel, appearance and scent of products.

Our luxurious products are all made of indigenous African extracts and oils, as we believe in supporting sustainable local development and agriculture. We are also committed to heighten awareness of the unique heritage we all share on the African continent, and to spread the word about the vast number of natural resources available for use in cosmetic products. Our extracts and oils are carefully selected to ensure optimal results, as well as a superior feel when used.

The distinctive combinations of natural products were formulated specifically to benefit body and skin, and the various blends of African extracts and oils were created to highlight an indigenous feel, without compromising product quality and performance.

Our products contain only top quality fragrance essences and raw materials, which will entice the skin and delight the senses. With 23 years of experience in the cosmetic and skincare market, we have mastered the art of conceptualising and formulating products with the aid of the latest innovations in using raw materials.

Our products are of exceptional quality and guarantee visible results with continued use, while delivering skin satisfaction.
